

# **CS 301: Data Structures and Algorithms - Exam Information**

## **Midterm 1**

Date: Week 6, in class. Covers arrays, linked lists, stacks, queues, and Big-O analysis. Closed book, one handwritten note card (both sides) allowed.

## **Midterm 2**

Date: Week 11, in class. Covers trees, heaps, hash tables, and basic graph algorithms. Same note card policy as Midterm 1.

## **Final Exam**

Cumulative, covers the entire course. Scheduled during finals week per the university exam calendar. Two note cards allowed.

## **Makeup Exam Policy**

Makeup exams are only offered for documented emergencies communicated to the instructor before the exam date whenever possible. Unexcused absences from an exam result in a zero.
